Bradley's Problem

Directions: Read the following scenario. List 10 Attitude problems that Bradley has at his job. Then write down a way that Bradley can fix his attitude and correct the problem.

Bradley works at a grocery store. His boss is constantly nagging him. Every time he sees his boss coming, he walks the other direction fast, so his boss cannot catch up to him. He does it very smoothly, so his boss will not notice. When his boss does catch up with him, and starts giving him instructions, he rolls his eyes, and looks away with disinterest. When his boss walks away, he pulls out his cell phone, and starts texting his friend to tell him what a jerk his boss is. He conveniently forgets everything he was told and goes about his day by putting his ear-buds in so that no one will be able to bother him. Bradley cannot figure out why all the other employees have gotten raises, but he has not gotten a raise yet. He thinks his boss is so stupid. After work, he goes home and puts a post on Facebook, explaining how lame he thinks his boss is, and how stupid the grocery store.
